

HIGHWAY SERVICES

MAKING HIGHWAY TRANSPORT AN OPTION YOU CAN COUNT ON

For long-haul services, it would be hard to find a better partner than IDI. We have years of experience transporting standard and over-dimensional freight across the continental United States, as well as to and from Canada and Mexico. And by knowing the challenges of transporting specialized freight over the road, we're able to help you plan and execute these important shipments quickly and more successfully.

In fact, we're able to deliver responsive service and ensure on-time delivery for any highway transport day in and day out. We've even set up an expedited freight service, with driving teams who are able to cover more than 1,000 miles a day, to give you a less expensive alternative to costly air freight shipments when timely delivery is required.

Best of all, there are no surprises when you work with IDI. We keep you up-to-date with all your shipments, no matter where they're going or how quickly they need to get there.
