

METAL

THE BEST WAY TO GET YOUR METALS TO MARKET

At IDI, we have the network in place to get everything you need moved in a timely and secure manner. We work to deliver innovation transportation solutions that can give you more capacity and often reduce your shipping costs – including complete door-to-door intermodal solutions and transcontinental flatbed hauls. Best of all, since we handle everything, you get the results you want by making one call to us.

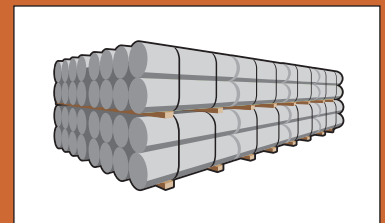

Why IDI is the company you want to work with

For more than three decades, we've been moving metals for clients across North America. We currently serve a number of metal producers based in California, North Carolina, Ohio, Oregon, Pennsylvania, South Carolina, Texas and Washington.

When you work with us, we use the experience we've developed with these manufacturers to help you get your metals delivered anywhere in North America.

What we have to offer you

From steel to titanium to scrap, we are experienced with the loading and transportation of many different types of metal shipments.

IDI has handled many metal products including:

- Coils
- Sheets
- Slabs
- Preforms
- D-rounds
- Ingots
- Jumbo ingots
