

PAPER

KEEPING THE PAPER INDUSTRY MOVING SINCE DAY ONE

No industry counts on timeliness like the paper business. Shipping schedules are tight and if one delivery is missed, a whole print run can shut down. That's why IDI only works with the best drayage providers and drivers, constantly monitoring performance so you can count on us every step of the way.

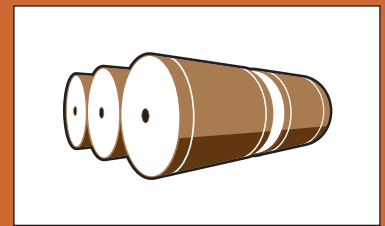

We even work with customers to ensure proper loading, securing and blocking of containers for safer shipping. And, for your complete peace of mind, we help you track shipments electronically from any web-enabled device.

Why IDI is the company you want to work with

Since 1980, we've serviced the pulp and paper industry from our Portland, Oregon, headquarters and we continue to expand our relationships with paper companies throughout North America. As a result, we've grown to be one of the most respected providers of intermodal and over-the-road services in the paper industry.

What we have to offer you

IDI understands that serving the paper industry means more than simply shipping paper products. We help keep the industry running strong by transporting paper by rail nationwide, shipping critical machinery and equipment over-the-road, and getting recycled paper to mills.

IDI has handled many paper products including:

- Paper
- Recycled paper
- Machinery
